Now that You are Vested Part of Your Complete Career Development Plan

According to some financial planners, it isn't that difficult to become a millionaire as long as you start early enough and follow an *effective and consistent* investment strategy. Planning for retirement should be a life-long activity and should **not** begin at the end of your career.

If you are a member of the Employees' Retirement System and have at least five years of service, you should understand how to calculate your retirement benefits and how to obtain the additional resources you will need to maintain the retirement lifestyle you desire.

The **Now That You Are Vested** 3-hour workshop examines how to determine your retirement needs and looks at other sources of retirement income offered to you by the County such as Deferred Compensation. In addition, you will be given the essential tools for personal investing from a presentation by a Certified Financial Planner.
